FRONT-END DEVELOPER

I'm Frontend developer with almost a year of experience. I have a good design eye. I am a responsible, and initiative person, passionate about creating great website and satisfy the technical needs of my clients. I can deliver any idea, I am very helpful, communicative and available.

EXPERIENCE

Freelance, MOROCCO — Remote

Sep 2021 - Present

I've build fast and performing web apps using React, for various clients.

PROJECTS

1. THENEXT (Tasks/planner)

I've built this application that allows users to plan their tasks and keep track of the progress of each task via a dashboard in form of calendar, a creative approach to manage tasks effectively and finish what matters most. It's built with React & the styling is done with Tailwindcss. Authentication & storage with Firebase.

Technology used :

- Front-end: React and tailwindcss.
- Back-end: Firebase for handling database and authentication.

2. MAPTIVITY (map / note list)

This project is a form of a map where a user can pin a note or an activity. It's built with React, & Leaflet library.
